SUMMARY

Final-year Computer Science and Engineering student with 3 internship experiences and 500+ Data Structures and Algorithms problems solved. Proficient in Java, Python, JavaScript, REST APIs, backend development, SQL, AWS, Git, Docker, and CI/CD. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Linux, and Computer Networks. Experienced in developing, testing, debugging, and deploying backend and full-stack applications in Agile environments, with hands-on experience in API integration, automation, cloud services, and scalable software systems.

EDUCATION

Sri Venkateswara University **Apr 2027 (Expected)**
Bachelor of Technology in Computer Science and Engineering CGPA: 8.7 *Tirupati, A.P*

TECHNICAL SKILLS

Languages: Java, JavaScript, C++, TypeScript, Python, SQL
Frontend: React.js, HTML5, CSS3, JavaScript
Backend: Node.js, Express.js, RESTful APIs, Spring Boot, Spring Framework, Spring MVC, Spring Data JPA, Flask, Microservices
Databases: MongoDB, MySQL, DynamoDB, Redis
Networking: TCP/IP, HTTP/HTTPS, REST, WebSockets, Basic Socket Programming, SSH
Cloud & Tools: Git, GitHub, Docker, Kubernetes, CI/CD Pipelines, AWS , Maven, Postman, Linux
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

FlyRank AI | Back-End AI Engineering Intern **Jun 2026 – Present(Remote)**

- Engineered modular REST APIs using **Node.js** and **Express.js** for AI-powered services, reducing integration time by **40%** and minimizing code duplication across **five microservices**.
- Orchestrated backend feature delivery in **Agile sprints** using **Git**, code reviews, and **CI/CD pipelines**, accelerating release cycles and ensuring production-ready, maintainable code.

Mallikarjuna Infosys | Full Stack Developer Intern **Nov 2025 – Dec 2025 (Remote)**

- Developed and deployed 30+ RESTful APIs using the MERN Stack, AWS Lambda, and API Gateway, reducing API response time by 35% and improving scalability for production workloads.
- Architected a high-throughput backend metadata layer using **AWS DynamoDB**, improving data access speeds by **30%** and ensuring **sub-second response times** for up to **10,000 concurrent users**.
- Designed and implemented a real-time chat application using **React.js**, **WebSockets**, and **MongoDB**, increasing user engagement by **50%** while supporting **100+ concurrent users**.

PROJECTS

Official Website – SVUCE | *React.js, Node.js, Express.js, MongoDB, REST APIs* | Live Demo **Dec 2025 – Feb 2026**

- Launched a scalable **full-stack university website** using the **MERN Stack**, serving an estimated **12,000 monthly users** through responsive interfaces and optimized **REST APIs**.
- Developed a secure **CRM/Admin Portal** with **JWT-based authentication**, centralizing department, faculty, placement, announcement, gallery, and website content management, reducing administrative overhead by **40%**.

Banking Portal REST API | *Spring Boot, Spring Security, Hibernate, JPA, MySQL* | GitHub **May 2026 – Jun 2026**

- **Designed** a secure Banking Portal REST API with 15+ endpoints using Spring Boot, Spring Security, Hibernate, JPA, and MySQL, supporting user registration, account management, deposits, withdrawals, fund transfers, and transaction history.
- **Established** JWT-based authentication, role-based authorization, global exception handling, and input validation, while optimizing API performance through efficient data handling and caching strategies, reducing transaction response times by 35%.

ACHIEVEMENTS & CERTIFICATIONS

- **National-Level Hackathon:** Achieved a **Top 5** ranking at the National-Level Hackathon organized by **BVRIT Hyderabad**.View
- **Top 20, GFG SVU Leaderboard:** Ranked among the **Top 20** out of **1700+** coders from Sri Venkateswara University. View
- **Open Source Contributor:** Authored 50+ code commits for a popular open-source project, enhancing core functionality and resolving critical bugs, earning direct commendation from project maintainers.View
- **DSA:** Completed the **TUF+ (Take U Forward)** DSA program covering data structures, dynamic programming, graph algorithms, and competitive programming.View
- **AWS Cloud Practitioner Essentials:** Completed the official AWS Training & Certification program covering AWS Cloud fundamentals, compute, storage, networking, security, IAM, pricing models, and Well-Architected best practices. View

EXTRACURRICULAR ACTIVITIES

- **National-Level Hackathon Coordinator:** Coordinated the National-Level Hackathon and Tech Fest at Sri Venkateswara University College of Engineering, managing registrations, event logistics, and technical sessions for **300+ participants**.
- **Cynosure National Tech Fest:** Contributed to the development of the official tech fest website and event activities, supporting an event that generated **Rs.1.5 lakh in revenue**.
